

Town of Glastonbury
RPGL-2009-12
Historical Architect/Engineering Services
Slocomb Building Study
Addendum #2

DUE DATE 11-13-08 @ 11:00 A.M.

Please be advised that the following addendum items **will be distributed to all vendors attending the Mandatory Pre-Proposal meeting on October 30, 2008.**

The following questions have been submitted:

- (1) Does a hazardous material survey of the building exist? If so, will it be made available to the selected consultant? If not, does this scope of work include performing a hazardous material survey?
- Answer: A hazardous material survey does not exist. This scope of work does not require the selected consultant to perform a survey. The selected consultant will perform the historical research and present the findings and recommendations called for in the scope of work. The Town will use the findings to determine a course of action with respect to different portions of the building. The Town will have a hazardous material survey performed, as necessary, based on the course(s) of action pursued.
- (2) Does the Town have any specific age or time period to be used to provide a historical point of reference?
- Answer: There is no specific age or time period, currently, to be used as a historical point of reference. That determination will likely be made based on the findings of the selected consultant and consultation with Town staff and historical stakeholders.

Copies of the following documents have been posted to the Town's Website at: www.glastonbury-ct.gov

- a) Slocomb Property Survey Map
- b) Slocomb-Glazier Insurance Map
- c) Pre-proposal Sign-In Sheets

Click on "Bids & RFPs" on the Home Page.

Please confirm receipt of this addendum by November 3, 2008 by 10:00 A.M. to Kathy Hughey @ (860) 652-7590 (Fax)
