Town of Glastonbury

2155 MAIN STREET • P.O. BOX 6523 • GLASTONBURY, CT 06033-6523 • (860) 652-7500
FAX (860) 652-7505

Richard J. Johnson
Town Manager

March 10, 2017

The Glastonbury Town Council
2155 Main Street
Glastonbury, CT 06033

Re: Town Manager's Report

Dear Council Members:

The following will keep you up-to-date on various topics.

a. Hebron Avenue – Rumble Strips.

Per discussion at the February 28th meeting, the attached page shows the scope along Hebron Avenue to receive center line rumble strips. State DOT has been advised accordingly.

b. Santa's Run Road Race.

New England Runner magazine included the Santa's Run Road Race as one of the top 90 road races in New England and New York for 2016. Congratulations to all for this well-deserved recognition.

c. Brainard Airport.

A public hearing is scheduled in Council Chambers from 6:30 p.m. to 8:30 p.m. on Wednesday, April 19, 2017 concerning the Hartford-Brainard Airport – Environmental Assessment Report. Background is posted to the Town web site.

d. Eversource.

Per the attached, Eversource will be replacing transmission line structures beginning this month and continuing through calendar year end. Property owners have been contacted directly by Eversource.

Sincerely,

Richard J. Johnson
Town Manager

March 2017

Dear Neighbor,

As part of our everyday effort to deliver reliable energy and superior customer service, Eversource Energy is scheduled to start transmission work in your area in the next few weeks.

Reliability Improvements in Your Neighborhood

This maintenance work is taking place on the Eversource right-of-way that is on or near your property. Please note that this work will not interrupt electric service to your home or business.

What You Can Expect

Crews from JHD Corporation, Northern Corporation, and Michels Corporation working on behalf of Eversource, will be replacing existing wood structures with new steel structures along the 310 and 368 Lines in Lebanon, Andover, Columbia, Glastonbury, Hebron and Manchester.

There will be construction vehicles on the rights-of-way, including heavy equipment. Associated work will include site grading, mowing/vegetation removal, graveling the access road, setting of timber mats and replacing existing wood structures with new weathering steel structures of similar size. At project completion crews will restore areas disturbed by work.

Work hours will be Monday through Sunday 7 a.m. to 7 p.m. The Project is expected to be complete by the end of 2017. Please keep in mind the schedule is subject to change due to weather and other unexpected circumstances.

Keeping the lines of communication open is an important part of our work in your community. If you have questions about this project, please call the Eversource Transmission Information Line at 1-800-793-2202 or email us at TransmissionInfo@eversource.com.
