

## ROUNABOUT RULES TO REMEMBER!

### **YIELD!**

- At Entry - Always yield to vehicles that are already in the roundabout.
- To Pedestrians – Wait for pedestrians to finish crossing before continuing.
- To Bicyclists – Treat bicyclists in the roundabout like motorists. Wait for them to pass by before entering the roundabout.

### **STAY RIGHT AT ENTRY**

- Upon entering the roundabout, keep to the RIGHT.
- Travel around the roundabout in a COUNTERCLOCKWISE direction until you've reached your desired exit. If you miss it, travel around the circle again until you've reached it.

### **KEEP MOVING**

- NEVER stop in a roundabout. Vehicles in the roundabout have the right of way.
- If you miss your exit, continue around the circle until you've reached it again.
- Motorists - Keep a slow speed and continue travelling with traffic at all times while entering, traversing, and exiting a roundabout.
- Pedestrians - Use designated crossing areas. Cross one lane at a time, stopping at the center island of refuge before crossing at the second lane. Proceed with caution, as you would at any un-signalized crosswalk.

### **DRIVE SLOWLY**

- Slow down as you approach the roundabout.
- Motorists and bicyclists - travel slowly while entering, travelling in, and exiting.

### **EMERGENCY VEHICLES IN ROUNABOUT**

- If you have not yet entered the roundabout, and an emergency vehicle is behind you, pull over and allow the emergency vehicles to pass.
- If you are already in the roundabout, continue to your exit, then pull over and allow the emergency vehicle to pass. Avoid stopping your vehicle in the roundabout whenever possible.
