

**TOWN OF GLASTONBURY  
REQUEST FOR QUALIFICATIONS  
RPGL-2018-01  
PUBLIC SAFETY RADIO CONSULTANT  
ADDENDUM NO. 1  
08/18/17**

The attention of respondents submitting proposals for the above-referenced project is called to the following Addendum to the specifications. The items set forth herein, whether of omission, addition, substitution or other change, are all to be included in and form a part of the proposed Contract Documents for the work. Respondents shall acknowledge this Addendum on the Proposal Response Page (Attachment A).

***Question 1.***            ***Did the Town work with a consultant on your recent microwave project, and if so, who?***

**Answer**                No. We did work with our longstanding service provider to identify replacement components for our critical microwave links.

***Question 2.***            ***Does the Town have existing inventory records, either yourself or through your service shop, for your existing radio infrastructure and subscriber equipment?***

**Answer**                Yes. A complete inventory will be available to the selected consultant

***Question 3.***            ***Does the Town anticipate the consultant to also provide implementation management oversight following vendor selection and during installation?***

**Answer**                This remains to be determined and will be based on the option selected.

***Question 4.***            ***Does the Town anticipate vendor selection by December 1, 2017, or issuance of the RFP by that time?***

**Answer**                As stated in proposal section TERM OF SERVICE/TIME FOR COMPLETION:  
The selected firm will be expected to commence services within 15 days of contract execution or on such other schedule as may be agreed to with the Town. Work shall be completed no later than December 1, 2017.

***Question 5.***            ***What is managed services?***

**Answer**                Basically, managed services is a program whereby an organization leases a fully operational radio system from the provider. During the contract term, the provider is responsible for all aspects of the radio system.
