

No Waste in Our Water!

Glastonbury takes great pride in its parks and open spaces, proximity to the CT River, and availability of water sources for recreation. When pet waste enters our storm drains, it travels directly into our streams and rivers and adversely impacts fish species and recreation.

As a pet owner, please do your part to maintain the beauty of our community by following these simple rules that help prevent stormwater pollution:

ALWAYS

- **Bring a pet waste disposal bag with you when you take your pet out**
- **Dispose of pet waste/disposal bags in trash barrels**

NEVER

- **Dispose of pet waste/bags in storm drains or sewers**

Learn more at www.glastonbury-ct.gov/stormwater.
Thank you for doing your part!
