

**TOWN COUNCIL MEETING: DECEMBER 01, 2020**  
**PUBLIC COMMENT**

First Name	Last Name	Street Address	Meeting Date and Time	Comments: Per Council rules and procedures, please limit comments to what can reasonably be read to the meeting record in three (3) minutes or less. Please be mindful that this form is for public comment only. Please direct questions/general inquiries to Council members directly.
C J	Mozzochi	227 Hebron avenue	12/1/2020 0:00	If a student, teacher or staff member of any school in Town tests positive for COVID-19, according to the CDC, there is absolutely no test whatsoever, medical or otherwise, that can determine that that person did not contract that virus infection while in the school. Consequently, I cannot accept, as factually correct, the statement in the November 19th edition of the Citizen by Dr. Bookman, "Contact tracing continues to indicate that virus exposure is happening primarily at home and close contacts are taking place during non-school activities." The parents of school-aged children in town are being very improperly advised by Dr. Bookman, the BOE and the Governor. All of the schools in town should be closed immediately, and they should remained closed; until respected medical scientists say it is the proper time to reopen them.
