TO:	Town Plan & Zoning Commission
FROM:	Alter & Pearson, LLC
DATE:	July 15, 2021 (revised July 16, 2021)
RE:	Response to Letter Submitted by Dr. Scott Bissell, 156 Dug Road, South Glastonbury dated June 5, 2021 as Requested by Town Staff and Plans Review Subcommittee

Town Staff and members of the Plans Review Subcommittee requested that the Applicant respond to a letter submitted by Dr. Scott Bissell, 156 Dug Road, South Glastonbury dated June 5, 2021 (letter attached as <u>Exhibit A</u>).

Since April 27, 2020, Dr. Bissell has submitted complaints to the Town's Q-Alert system regarding issues he attributes to Hops on the Hill ("HOTH") and/or Dug Road. Attached as **Exhibit B**, are Dr. Bissell's thirty-one (31) complaints including speeding, potholes, paving requests¹, and tree pruning. The speeding complaints were investigated by the Police Department. The data from the studies performed by the Police Department and Engineering Department on Dug Road adjacent to Dr. Bissell's home (**Exhibit C**) found that the 85th percentile of speed was 22.3 mph in the first study and 25 mph in the second study. The posted speed limit on Dug Road is 25 mph.

Below please find the Applicant's responses to Dr. Scott Bissell letter dated June 5, 2021, as requested by Town Staff and members of the Plans Review Subcommittee.

- 1. "[t]he brewery is open far more than often than the Commission approved. Most obvious was that the approval was for March through December, yet this year it was open in January and February."
 - The 2018 approval included no express condition as to the times of the year that Hops on the Hill could be open. At the 2018 public hearing Commissioner Hassett asked about the "general anticipated time of operation", to which Attorney Alter stated that the "the hours of operation would be as follows...Tuesday through Friday 4-8 PM, Saturday and Sunday 1-6 PM, from March to December, January and February, it is not anticipated that the farm market brewery would be open to the public". HOTH chose to be open to the public 18 hours a week, Thursday through Friday, 4-8 PM, and Saturday and Sunday from 1-6 PM. Last year HOTH elected to close the week of Christmas and New Year's and operated on reduced hours in January and February (Saturday and Sunday, 1 PM-6 PM). Patrons continue to visit the Site in the winter months, including coming to the Site on snowshoes and cross-country skis.
- 2. "The brewery is also available for events and other activities outside the hours that were discussed at the public hearing."
 - Private events are held at HOTH, and typically occur outside of the time that the Site is open to the public. Examples of the private events include club meetings, engagement

¹ Dug Road is a Town road approximately $4,400\pm$ feet in length. The road has both paved and dirt/gravel portions. Dug Road is paved from Tryon Street to just past the HOTH driveway entrance ($1,200\pm$ feet in length). The road then turns to a surface of dirt/gravel just before Dr. Bissell's driveway ($1,700\pm$ feet in length). The road then changes back to a paved surface to Main Street ($1,500\pm$ feet in length).

parties, yoga classes, fundraisers, seminars, and end-of-life celebrations. No approvals for private events are required. This is consistent with private events that occur at other business and farms in Glastonbury.

- 3. "Hops on the Hill appears to be a bar/taproom as they applied for an were granted a CT Craft Cafe Liquor Permit. They now serve beer from other vendors. This is different than what was presented at the public meeting."
 - HOTH has always been in compliance with its liquor permit. On July 1, 2020, several existing liquor permit types were repealed and reclassified. The changes applied to the Beer Manufacturing and Brew Pub Permits, which was the type of permit issued to Hops on the Hill Brewery (Permit LMP.0000092) on June 11, 2019, which covered both the brewing and the serving. On October 11, 2020, when the LMP permit was set to be renewed, the LMP permit was removed and replaced with an LMB permit (Permit LMB.0001571) (Manufacturer for Beer). Under the previous LMB permit, HOTH was able to serve the beer it made, together with wine and cider made by others. The wine and cider options are offered for patrons who do not drink beer and/or are gluten free. The Connecticut Craft Cafe Liquor Permit continues that practice. Placarding procedures were followed, and the Liquor Control Division issued the Connecticut Craft Cafe Liquor Permit on February 16, 2021 (LCR.0000016), after all needed sign-offs were secured by the Town of Glastonbury.
 - HOTH has ten beer taps, with nine out of the ten pouring HOTH beer. Patrons requested that HOTH carry a sour beer, since the production of a sour beer is not feasible in the HOTH facility due to the duration that it takes to ferment a sour beer, a guest tap is being carried.
- 4. "I would respectfully point out that a beer with 9.2% alcohol level is not in keeping with the above statement from the May 2018 meeting. It is notable that the applicant at that time took umbrage with the notion that beer with high alcohol content would be available."
 - Of the ten beers on tap only one beer exceeds the alcohol content that was anticipated. Please note that beer with a higher alcohol content is served in fewer fluid ounces (8 oz. pour instead of a 16 oz. pour).
- 5. "Attorney Alter confirmed for the record that there will be no outdoor consumption of beer allowed and no outdoor music/speakers. He also stated that there are no plans for food service on site."
 - Attorney Alter's statement was made in response to a question from Commissioner Hassett at the May 15, 2018, public hearing. On March 19, 2019, the Commission approved a §12.9 Minor Change to allow no more than two food trucks at the Site for seasonal events, which consisted of ten weekend events. Indoor acoustic music was also permitted. During COVID-19 the Executive Orders required that alcohol consumption be limited to outdoor areas and that alcohol had to be served in conjunction with food. The COIVD-19 Executive Orders demonstrated that there was a clear positive enhancement to HOTH with the incorporation of a food truck on a regular basis, and outdoor use and consumption. Most patrons continue to feel more comfortable being outside. HOTH has no plans for the addition a commercial kitchen or for the service of beer outside.
 - The Applicant applied for and received a permit from the Building Department for the tent. On May 18, 2021, the Applicant met on Site with Rebecca Auger, Director of Planning and Land Use Services and Jonathan Mullen, Planner regarding complaints from Dr. Bissell. On May 19, 2021, the Applicant applied to add an accessory food truck use

for non-private events at Hops on the Hill on Thursday and Friday from 4 PM to 8 PM and Saturday and Sunday from 1 PM to 6 PM. The Applicant attended the Plans Review Subcommittee Meeting on June 9, 2021, and amended its request to continue the outdoor use and consumption on July 9, 2021.

- 6. "Once again, speaking to the change in the scope and nature of the operation I would call your attention to the police report #21-9303 from 5/29/2021. After a few hours of loud music emanating from Hops on the Hill I made a noise complaint around 9pm. This is well after the published and approved brewery hours had ended (Saturday closes at 6pm). As you can see from the police report an event being held at the brewery with amplified music was observed."
 - A private event was held at Hops on the Hill on May 29, 2021, which ended at 9:30 PM. Officer Ingham's police report (**Exhibit D**) indicates that "[u]pon my arrival, I parked my cruiser halfway up the driveway of HOTH and listened for obvious signs of music. In the distance I could hear amplified music but would not say the noise was excessive." Further, Officer Ingham indicated that "Scott stated that he wanted the incident to be documented for purposes of taking the reports to Town Planning & Zoning Commission meetings. Scott was given a copy of the case number and was pleased with the outcome. Let it be noted that while speaking with Scott outside his residence I personally could not hear any amplified music." Glastonbury does not have a noise ordinance.
- 7. "The top portion of Dug Road as it intersects Main Street is dangerous due to insufficient sight lines for traffic looking left and turning onto Main Street. I know the town has been made aware of a significant accident that occurred recently involving a vehicle pulling out at this location."
 - A two-vehicle car accident occurred on Monday, March 29, 2021 at 3:11 PM at the intersection of Dug Road and Main Street. Hops on the Hill was not open at the time of the accident, and the cars involved in the accident were that of two local residents. Attached please find the Police Crash Report (Case Number: 2100005339) for the above-referenced accident (**Exhibit E**).

Scott Bissell 156 Dug Road South Glastonbury, CT 06073 scottbissell@hotmail.com

Jonathan Mullen Town Planner Town of Glastonbury 2155 Main Street Glastonbury, CT 06033-5523

June 5, 2021

Dear Mr. Mullen:

I write in follow up to my 5/25/2020, 1/25/2021, and 4/28/2021 letters concerning Hops on the Hill Brewery. I apologize for some of the redundancy contained within my correspondence.

I understand that a request may be moving though subcommittee for additional food trucks on site at the brewery during regular hours, not just during "festivals". Additional concerns have also presented themselves.

The brewery has resulted in a substantial amount of increased traffic on Dug Road. As you are well aware, Dug Road is narrow, has poor sightlines, and is unsuitable for large scale commercial traffic patterns.

Commissioner Hassett commented that the applicant's initial proposal was presented as a tasting room with very limited activity but with this new request, the project has significantly changed. He asked if the Commission is willing to accept these changes, which can substantially increase the activity at the venue. Ms. Dodds clarified that in the original approval, the hours of operation were included in the description of the proposal itself, which made the hours a key component of the application, and therefore it was not necessary to also include the hours within the conditions of approval. Chairman Shaw also noted a concern about the level of alcohol consumption that may rise with the food trucks. Commissioner Saunig countered that the additional food options may dilute some of that concern. Commissioner Hassett said that is fine, but his worry lies with the fact that the original application has changed.

I share Commissioner Hassett's concerns that the project that was originally presented and approved has substantially changed. As I have pointed out in my prior correspondence, the brewery is open far more often than the Commission approved. Most obvious was that the approval was for March through December, yet this year it was open in January and February. The brewery is also available for events and other activities outside of the hours that were discussed at the public hearing. As you can imagine, any

event results in traffic. At the public hearing I only recall discussion occurring around the "open hours" which were approved. For reference please see below taken directly from the Hops on the Hill website.

What we can accommodate:

- Work day business meetings or training sessions for up to 80 participants
- Complete venue rentals for groups of 60-150 for business socials, fundraisers, professional associations, cocktail parties, etc.
 - Monday-Wednesday all hours
 - Thursday and Friday before 4:00pm
 - o Saturday and Sunday evenings after 7:00pm
- Brunch/luncheon gatherings on Saturday & Sunday prior to opening

During Open Hours...

- Table/space reservations for birthdays, anniversaries or other celebrations:
 - Up to 50 guests during the winter and on summer Thursdays
 - Up to 30 guests on Friday, Saturday, and Sunday during the summer
- Tent (30' x 60') with tables and chairs to accommodate groups of 30-120
- Groups setting up outside with their own accommodations (food, tables, chairs, tents, etc.):
 - No fee required, but advance notice is appreciated

Attorney Alter reviewed the architectural elements of the tobacco barn/farm market building as well as proposed lighting and signage. With regard to an anonymous document that was circulated around the neighborhood, Attorney Alter noted that it contained several false statements and stated that the proposal is not for a bar/taproom or for a distribution brewery that would involve large daily deliveries, and the beer will not have a high alcohol content. He explained that alternate access from Main Street is not

Speaking to the scope of the project, Hops on the Hill appears to be a bar/taproom as they applied for and were granted a CT Craft Cafe Liquor Permit. They now serve beer from other vendors. This is different than what was presented at the public meeting.

Beers on Tap

Sunset IPA > Farmers Tan New!> Rusty Triangle DIPA ~ DIPA with juicy mango orange flavor and crisp fruit aroma. ABV: 9.2% (8oz) Hefe > Blondie > Broadleaf Brown Ale New! > Roaring Brook Red > American Pale Ale > Mel-Mel Stout > Raspberry Sour Guest Tap >

I would respectfully point out that a beer with 9.2% alcohol level is not in keeping with the above statement from the May 2018 meeting. It is notable that the applicant at that time took umbrage with the notion that beer with high alcohol content would be available (referencing the document referred to by Attorney Alter that was circulated which "contained several false statements"). I have no knowledge as to the source of that document and never saw the source document referenced, however, the person or persons concerns appear to have been correct on more than one count.

Attorney Alter confirmed for the record that there will be no outdoor consumption of beer allowed and no outdoor music/speakers. He also stated that there are no plans for food service on site.

I have referenced this statement from the May 2018 meeting consistently. In my mind it pretty much speaks for itself. Once again, speaking to the change in the scope and nature of the operation I would call your attention to police report #21-9303 from 5/29/2021. After a few hours of loud music emanating from Hops on the Hill I made a noise complaint around 9pm. This is well after the published and approved brewery hours had ended (Saturday closes at 6pm). As you can see from the police report an event being held at the brewery with amplified music was observed.

I would again point out that based on a variety of social media posts from the brewery outdoor consumption of beer appears to be the norm.

Moving on – to state the obvious - Dug Road is partially dirt. It is frequently in disrepair with erosion and potholes. <u>The amount of dust generated by the increased traffic is substantial</u>. Clouds of dust kicked up from the line of traffic moving to and fro from the brewery hang like smog over the road and eventually drift into neighboring yards and homes. On several weekend occasions it has been challenging to be in our backyard due to the dust kicked up by the traffic. I have resorted at times to watering the road to keep the dust down. <u>There is a reason that businesses dependent on commercial traffic are not located on a rural residential dirt road.</u>

The top portion of Dug Road as it intersects Main Street is dangerous due to insufficient sight lines for traffic looking left and turning onto Main Street. I know that the town has been made aware of a significant accident that occurred recently involving a vehicle pulling out in that location.

I ask that the following be considered:

- An employee or preferably a hired off duty police officer should be stationed at the entrance/exit
 of the brewery to direct all traffic exiting to turn right and exit via the paved road to Tryon Street.
 This will lead to a signalized intersection back to Main Street. Despite the presence of a small sign
 asking patrons to turn right many do not heed the suggestion. It is notable that even the food
 trucks that are hired by the brewery turn left and come up Dug Road!
- 2. Every effort should be made to encourage traffic coming from Main Street to use Tryon Street, not Dug Road. I recognize this is challenging as many people use GPS programs these days.
- 3. Consider paving the dirt portion of Dug Road to mitigate the significant dust and poor road conditions. I have placed several requests to the town via the web portal over the last two years for consideration of this but have not received a response.
- 4. Widen the upper portion of Dug Road to accommodate two cars passing safely to reduce the risk of a head on collision. There is also little to no room for bikes or pedestrians on that area of the road to safely move to if a car driving fast or erratically is encountered.
- 5. Revisit the possibility of an alternative entrance directly off Main Street or Carini Road. Now that there is a demonstrated significant traffic flow this possibility should be strongly considered.
- 6. The agreed upon terms of operation from the May 2018 approval should be enforced.

It has become apparent that what was approved on May 15, 2018 is not what is being practiced. The number of deviations in my mind is striking.

Respectfully,

List Brill

Scott Bissell

From: Kathryn Paquette <<u>kathryn.kell@glastonbury-ct.gov</u>> Date: Tue, Jun 15, 2021 at 4:30 PM Subject: RE: Q-Alert Complaint Copies - Hops on the Hill at 275 Dug Road To: Meghan Hope <<u>mhope@alterpearson.com</u>> Cc: rebecca augur <<u>rebecca.augur@glastonbury-ct.gov</u>>, jonathan mullen <<u>jonathan.mullen@glastonbury-ct.gov</u>>, Richard Johnson <<u>richard.johnson@glastonbury-ct.gov</u>>, Marshall Porter <<u>marshall.porter@glastonbury-ct.gov</u>>

Hi Meghan,

I hope your week is going well. I looked through our QAlert system and Mr. Scott Bissell has submitted 31 QAlert tickets regarding Dug Road. Some of them specifically mention the 275 dug road address, and, while others do not cite that as the specific address, they do mention the brewery or the general vicinity. I have compiled all of the tickets (11 currently open/in progress and 20 that have been closed/resolved) into the attached PDF. The first few pages summarize the tickets by status (open/in progress vs. closed) and then the report for each individual request/complaint follow. There may be a few duplicates as some of the requests end up being linked, but I didn't have a way of discerning which was which so at least this way you have everything.

It's a very large file so hopefully this comes through for you and addresses your needs but please let me know if you need anything further.

Thanks and have a great night,

Kathryn

User:	jeffreyhodder		
Comments:	This area, as many other farm related activities have seen a marked increase in activity and vehicular traffic as Fall approaches. No doubt, volumes of traffic have increased in the area of Dug Rd, Tryon Street and Ferry Lane in the recent weeks. In response to this q-alert, I confirmed that the signage at the Brewery is in place suggesting to motorists to use Dug Rd		

15/2021	QAlert
	to Tryon Street for easier egress. These signs are not legally enforceable and only in place to help alleviate traffic for those who wish to follow them. Dug Road is a public road. A selective enforcement case was added for police patrol units to provide extra attention to the area for speeding or other safe driving issues as possible.

Comments:	Previously reported and unsubstantiated. In addition, This particular weekend with a event at the Brewery, GPD Traffic Unit along with Officers from both day and evening patrol shifts monitored the area closely and found no violations as described by reporting party. Officers noted, traffic volumes were high, but no speeding or "erratic driving" were observed.

Exhibit C

From: Jeffrey Hodder <<u>jeffrey.hodder@glastonbury-ct.gov</u>> Sent: Friday, May 21, 2021 12:15 PM To: jonathan mullen <<u>jonathan.mullen@glastonbury-ct.gov</u>> Subject: Dug Road Speed/Volume data

Hi Jon,

The two PDF files attached are from the Engineering Speed Study. The first one was taken Eastbound on Dug Road right by #156 between 04/08/21 and 04/12/21 with 1014 vehicles passing by with a 85th percentile of speed at 24.1 mph. The second PDF is Town Engineering's study taken during the same time period westbound by #201 with 800 vehicles passing by and a 85th percentile of speed at 22.3 mph.

The 5 additional screen shots are from my software program of the sign deployed on Dug Road between 11/27/20 and 12/07/20. The sign was eastbound just east of #156. During that time, 917 vehicles passed by with an 85th percentile of 25 mph. I have the complete file of raw data from the sign but its difficult to view without the sign software that I have so if you need more data from it, please let me know.

Jeff

Sergeant Jeff Hodder #360 Traffic Unit Supervisor Glastonbury Police Dept. 2108 Main Street; P.O. Box 535 Glastonbury, CT 06033 Dispatch: (860) 653-8301 Direct: (860) 652-4254 Fax: (860) 652-4290 Email: jeffrey.hodder@glastonbury-ct.gov<mailto:jeffrey.hodder@glastonbury-ct.gov> [GPD Patch][Motor Wings]

On 05/29/2021 at 2024 hours, I responded to 275 Dug Rd (Hops On The Hill) on the report of amplified loud music coming from the venue.

Upon my arrival, I parked my cruiser halfway up the driveway of Hops On The Hill and listened for obvious signs of music. In the distance I could hear amplified music but would not say the noise was excessive. While parked, a brewery worker drove by and stated that they were just finishing up a wedding and the event would be over by 9:30 PM.

I then made contact with the complainant, identified as Scott Bissell at his residence of 156 Dug Road. Scott stated that he has had ongoing issues with the amplified music coming from Hops On The Hill. Scott stated he wanted the incident documented for purposes of taking the reports to Town Planning & Zoning Commission meetings. Scott was given a copy of the case number and was pleased with the outcome.

Let it be noted, while speaking with Scott outside his residence I personally could not hear any amplified music.

CONNECTICUT UNIFORM POLICE CRASH REPORT

Form PR-1 REV July 2014.01 Crash Summary (Back) Case Number

DOT Identifier: For DOT use only 2100005339

Officers Narrative: Describe any unusual circumstances associated with the crash, including officer's observations. Refer to each by motor vehicle number and/or non-motorist number

On 03/29/2021 at approximately 3:11PM I was dispatched to Main St. and Dug Rd. for the report of a motor vehicle collision with unknown injuries.

Ofc. Cooper and I arrived on scene shortly after and noticed a gray Toyota Highlander off the roadway and a red Saab 900 on fire at the intersection of Main St. and Dug Road. No occupants were in either vehicles when we arrived on scene. GFD responded and put the vehicle fire out. I made contact with the operator of the Saab, Benjamin Ferrari, who stated he was traveling South on Main Street approaching Dug Rd. when the Toyota Highlander pulled out in front of him from Dug Road which resulted in a collision. Benjamin stated the incident happened very quickly. Benjamin stated he had nose pain as a result of the collision and was evaluated by GEMS. Benjamin did not admit to speeding and said he was driving on Main Street and was heading home to his house at 513 Main Street. I also spoke to Benjamin's father, Michael Ferrari, and advised him of what occurred.

Ofc. Cooper spoke to the operator of the Toyota Highlander, Jane Snyder-Demaio, and her front seat passenger, Paul Demaio. Jane stated that she arrived at the stop sign at the intersection of Dug Rd. and

CONNECTICUT UNIFORM POLICE CRASH REPORT

Form PR-1 REV July 2014.01 Appendix A: Narrative Continued Complete this sheet if more space is needed for the narrative

Case Number: 2 DOT Identifier: For DOT use only

per: 2100005339

Main Street, did not see any vehicle's approaching her, so she pulled out and attempted to make a left turn onto Main Street at which time her vehicle was struck. She believed that Benjamin was traveling at a high rate of speed. Jane complained of head pain.

I then spoke to a witness on the phone, Nicole Huhn, who stated she was traveling behind the red Saab south on Main Street and noticed that it was speeding away from her. When she approached the intersection of Main St. and Dug Rd. she noticed a collision had occurred, but did not see how it occurred.

It should be noted no skid marks were found on Main Street in the area of the collision. Both vehicles were towed due to disabling damage. Jane was found at fault for the collision and given a written warning for C.G.S 14-301 Failure to Obey a Stop Sign, specifically related to the language in the statute stating that a driver of a vehicle obliged to stop at a stop sign fails to yield to a vehicle not so obliged.

No independent person on scene witnessed the collision occur.

Photos of the scene were taken. Case Closed. 446
