Re: Proposed Trash Receptacle and Enclosure
Giovanni's Brickoven Pizzeria
113 Main Street

Dear Jon;

I am writing on behalf of my client as he would like to construct a 6 foot white vinyl fence enclosure at 113 Main Street and put a trash receptacle in it for his use. He rents an enclosure on the adjacent property but would like to have his own. The location of the proposed enclosure is depicted on the attached map and photos. The existing dumpster can be seen in one of the photos.

We believe this activity would meet the definition of an Insignificant Change under Section 12.10 of the Building Zone Regulations. The proposed location will not affect the overall layout, design, density, impact or nature of the original approval. Accordingly, we are asking for concurrence of the Building Official and TPZ Chairman. If it would be helpful, I could present the proposal to the TPZ Subcommittee. Please let me know what our next step would be or how we can facilitate this matter.

If you have any question, please feel free to call.

Sincerely,

Mark W. Friend, P.E. Soil Scientist
