

TOWN COUNCIL MEETING: OCTOBER 12, 2021

WRITTEN TESTIMONY: PUBLIC INFORMATION HEARING NO. 1

DISCUSSION AND PUBLIC COMMENTS ON POTENTIAL USES OF MONIES ALLOCATED TO GLASTONBURY THROUGH ARPA

First Name	Last Name	Street Address	Written Testimony: Per Council rules & procedures, testimony at public hearings is limited to 5 minutes. Please limit your written testimony to what can be reasonably read to the record of the public hearing in 5 minutes.
Amands	Constant	191 Three Mile Rd	I'm writing in support of Jessica Kerger's request to put a crosswalk from Three Mile Rd across New London Turnpike in effort to create a safer route for kids walking to hopewell school.
Gail	Tomala	29 Fawn Run	Please DO NOT vote today to spend Glastonbury's ARPA money to install public water in the Chestnut Hill area in response to uranium found in well water. Those people who cannot afford the necessary homeowner expenses, or who do not want to, or have already paid for uranium remediation themselves will not benefit from what would end up being a very costly and possibly dead end project. Surely such an expensive project should first involve a complete neighborhood survey including informing, updating and educating all homeowners in the area --including the expenses that would also need to be incurred by each household to access public water. Important, detailed data should be made available to the public and the neighborhood before a vote. This is the only responsible way to proceed and I would expect nothing less from the Town Council manager and the Town Council members whom we have entrusted to make informed and responsible decisions about our budget and about allocated federal monies.
