PLANTING NOTES

- All plant materials shall conform to the guidelines established by the American Nursery & Landscape Association.
- All disturbed areas not covered by buildings, or planting shall be sodded lawn. New lawn areas shall receive a minimum of 6" topsoil of the proper pH and organic content suitable for the healthy growth of lawns. Contractor will be responsible for mowing and watering during the guarantee period. Lawn areas shall be guaranteed for 60 days or second cutting, whichever is later.
- Contractor shall set plants out in field for approval of locations by Landscape Architect prior to planting.
- Spade edge all planting beds within lawn areas. Provide clean spaded edge at perimeter of all planting beds and tree pits adjacent to lawn areas. Spade edge of newly planted lawn areas following second mowing.
- All planting beds and bits to receive approved mulch to depths indicated in planting details.
- Where discrepancies occur between planting quantities or types shown on plan and in the Plant List, the quantity of plantings shown on plan shall prevail.
- Landscape Contractor shall guarantee all plant material for one (1) full year from date of acceptance. Proper landscape maintenance shall be the responsibility of the owner.
- Shade trees shall have the branching height of five (5') minimum.
- All tree and shrub pits shall be at least 2 feet wider and 2 feet deeper than the tree or shrub root ball to be planted in it. Backfill shall be high quality loam of the proper pH and organic content suitable for the healthy growth of plant materials.
- All areas to be mulched shall receive 4 inches minimum 100% shredded bark mulch within 48 hours of planting unless otherwise noted in planting details.
- Plants shall be handled at all times in accordance with the best horticultural practices. Plants in-leaf shall be sprayed with anti-desiccant before digging. Plants shall be dug with firm natural balls and shall conform to the ratios and sizes specified in ANSI Z60.1. B&B plants shall be wrapped in burlap and tied firmly. Plant materials shall be delivered immediately prior to placement, shall be kept moist, and shall be protected from sun and wind. Plants having broken or cracked balls prior to or during planting will not be accepted.
- All trunks of deciduous trees shall be wrapped immediately after planting with tree wrap. Wrap shall be wound spirally, from the bottom of the trunk to the second branches. All trees in windy areas shall be staked or guyed immediately after planting.
- The period for planting shall be from March 15 to May 15 and from September 15 to November 15, weather permitting.
