A copy of my expense report for the three months April through June 2022 was forwarded separately. I will appreciate Council recognizing receipt of this report on Tuesday evening.

4. **Commission on Racial Justice and Equity**

The report and recommendations by the Commission on Racial Justice and Equity presented to Council in early February included recommendations involving the Police and Parks & Recreation Departments. A status report is as follows:

Police – Implement a Police Open House for Glastonbury residents, with informational sessions sponsored by the Glastonbury Police Department (GPD) to learn about the values and practices of the GPD, and increase communication between the community and GPD.

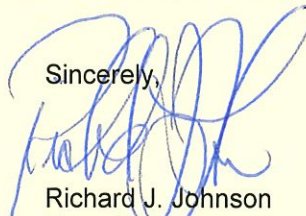

Department will offer a six-week police academy beginning this September with tentative dates of September 15, 22, 29, October 6, 13 and 20 from 6 p.m. to 8 p.m. at the RCC. Each weekly session will include a new topic covering a wide range of GPD activities. Officer Mike Magrey will be the primary department representative assisted by others throughout the six-week program.

Parks and Recreation – (1) Expand communication of community and local government events/meetings and Parks and Recreation programming to all community members including residents of Welles Village and families of open choice students. (2) Seek opportunities to improve recreational facilities in all areas of town, including those in the Welles Village neighborhood with the intention of providing equal recreational opportunities in all areas of Glastonbury.

- Adopted budget allocates monies for improved handicap accessibility to parks and athletic fields. Provides funding for pavilion like structure at RCC for programs and activities for all ages. Budget also funds improvements to basketball courts and children's playground at Welles Village. Grant application to be submitted to support these efforts. Pickleball courts at Riverfront Park will provide recreational opportunity for all ages. Handicap ramp installed at Y&FS to support access to outdoor programming and performances.
- Recreation activities this fall to include 3 on 3 basketball tournament and sport camps at Welles Village Park. Also to include pop up parks.
- Working to identify opportunity to expand community garden program to site in North Glastonbury. Continuing Welles Village activity council for youth through Y&FS.
- Placed Welcome Signs at parks and open spaces throughout Glastonbury confirming such open spaces are open to all. Included with various program publicity. Passport to Parks Program lists some 28 Town parks to explore, including Welles Park.
- Financial assistance provided to all those in need for participation in Town recreation activities.
- Youth and Family Services using a number of methods to publicize throughout the community of services of Y&FS. Flyers, email, signs, etc. These efforts will continue.
- Other initiatives include special needs programming, dial-a-ride transportation to activities and locations, etc.

Town staff throughout the organization will continue efforts in this regard along with ongoing Town operations.

Sincerely,

Richard J. Johnson
Town Manager

We hope to see you there!

RECYCLE CORRUGATED CARDBOARD TO SAVE TAX DOLLARS!

Effective July 1, 2022, the Town pays \$110 per ton to dispose of its solid waste, therefore it is essential that all community members do their part to recycle and reduce the overall volume of solid waste. As of this year, Glastonbury now receives a rebate of \$20 per ton for all clean, corrugated cardboard collected. In an effort to optimize this effort, the Town has installed an additional Satellite Recycling drop-off container exclusively for corrugated cardboard. The BLUE, labelled container is located next to the existing Satellite receptacles in the rear parking lot of Town Hall (2155 Main Street).

Residents may use this designated container to dispose of clean, cardboard only, (no packaging materials). **Please be sure to flatten the cardboard before depositing to minimize volume and associated transportation expenses, all of which translate to Town expenses/tax dollars.**

Please note, this satellite container is intended for residential use only. Businesses or individuals with a high volume of cardboard should please take their materials to the Transfer Station located at 2340 New London Tpk.

To ensure the Town receives the \$20/ton rebate, all Corrugated Cardboard MUST be recycled at the Transfer Station or Satellite container and CANNOT be comingled with other materials. Please do your part to reduce the overall volume of solid waste and maximize the Town rebate (save tax dollars) by recycling all materials properly and separating your corrugated cardboard! Visit www.glastonburyct.gov/recycle to learn more and thank you for recycling!
