

Town of Glastonbury

Health Department

Memo

October 18, 2022

To: Richard J. Johnson
Town Manager

Fr: Wendy S. Mis *WSM*
Director of Health

Re: COVID-19 update

Connecticut Department of Public Health (CT DPH) has recently revised how COVID-19 data is presented. Publicly available datasets previously used to populate charts and graphs for Glastonbury’s weekly COVID-19 reports are no longer available, and data from the new systems are not directly comparable to old systems. An archive of DPH data can be found [here](#). Previous Glastonbury reports can be found on the Town website [here](#).

This report contains data from laboratory-confirmed results. At home tests are not included in this data, so information and graphs demonstrate trends rather than a full accounting of cases. Numbers in (parentheses) indicate change from the previous week.

As per CT Department of Public Health data from October 17, 2022:

- A total of 132,215 tests have been administered to Glastonbury residents. (+305)
- Of the 132,215 tests administered, 7,378 were laboratory positive NAAT cases. (+27)
- No additional deaths were recorded this week. The loss of Glastonbury residents remains at 119. (+0)

Glastonbury COVID-19 Cases
Cumulative Positive NAAT Results

Test positivity is calculated as a rolling 7-day test positivity by specimen collection date; all positive molecular (PCR/NAAT) test results are divided by all molecular (PCR/NAAT) test results (positive and negative) for the last 7 days and multiplied by 100 to reach a percentage. Results are shown below for Glastonbury, Hartford County, and the state of Connecticut overall.

COVID-19 Vaccine update

The COVID-19 booster vaccine available this fall is specifically tailored to combat the two most prevalent omicron subvariants, BA.4 and BA.5. A person is eligible for a booster if it has been at least two months since their last COVID-19 vaccine (whether the primary series or any booster). The Moderna booster shot is approved for people ages 6 years and older and the Pfizer-BioNTech vaccine is authorized for people ages 5 years and older.

Additional clinics can be found at www.vaccines.gov and entering the zip code for the search area.

COVID-19 Testing locations

[CLICK HERE](#) for the 2-1-1 of Connecticut online site to search for COVID-19 testing. Users may refine their search by zip code, type of test and key demographics of individual to be tested.

	DATE	CLINIC TIME	WHERE	AGES ALLOWED	APPOINTMENT NEEDED?
COVID-19 Shots and Boosters	Wednesday, October 19	3 - 7 PM	RCC 300 Welles Street	Primary series ages 6 months and older; booster ages 5 years (Pfizer) or 6 years (Moderna) and older	NO
	Tuesday, November 1	2 - 5 PM	RCC 300 Welles Street	Primary series ages 6 months and older; booster ages 5 years (Pfizer) or 6 years (Moderna) and older	NO

Data for this report is gathered from publicly available data at <https://data.ct.gov/stories/s/COVID-19-data/wa3q-tfvc/>. Test positivity is calculated as a rolling 7-day test positivity by specimen collection date; all positive molecular (PCR/NAAT) test results are divided by all molecular (PCR/NAAT) test results (positive and negative) for the last 7 days and multiplied by 100 to reach a percentage. All data are preliminary and subject to change. Data from previous dates are routinely updated. CT DPH data reporting changes have been summarized and can be read [here](#).
