

## Free Webinar with Douglas Tallamy

Recent headlines about global insect declines, and three billion fewer birds in North America are a bleak reality check. Such losses are not an option if we wish to continue our current standard of living on Planet Earth. The good news is that none of this is inevitable. Tallamy will discuss simple steps that each of us can—and must—take to reverse declining biodiversity and will explain why we, ourselves, are nature’s best hope.

**Wednesday - March 15th at 7pm**

attend via zoom or gather and watch at the Welles Turner Memorial Library Friends room.

**TO LISTEN AT HOME** - register via this link or QR code:
