RE: Commercial and Recreational Vehicle Parking in Residence Zones

At the August 1st Town Council Meeting, the Council referred draft parking regulations for commercial and recreational vehicles in residence zones to the Town Plan & Zoning Commission (TPZ) for a recommendation. Attached are suggested revisions to Section 7 of the Town Center Zone regulations that may address concerns raised by the public regarding the need for greater flexibility in the regulations. These revisions are intended to allow greater flexibility for residents to park commercial vehicles for their personal use at their home while protecting public views. The draft regulations would also address the parking of recreational vehicles, boats, trailers, and mobile homes.

Currently, residents are permitted to park a maximum of one commercial vehicle on the lot, provided such commercial vehicle has a maximum capacity of one and one-half (1-1/2) tons, is owned by the owner or permanent resident of the property which it is to be parked, and is parked in the garage, barn or the rear yard of the property. Property owners may apply for a variance in all residential zones to park commercial vehicles in the driveway, or in front or side yards. In this instance, the applicant must demonstrate a hardship related to specific conditions of the property that do not affect the surrounding zone generally. Similar restrictions apply to the parking of boats, trailers, and mobile homes.

Staff reviewed the Town of Wethersfield's very detailed definition of commercial vehicles and zoning controls as model for the proposed regulations. This draft would change the following in the regulations:

1. expand the definition of commercial vehicles
2. add a definition for recreational vehicles
3. permit an unlimited number of commercial vehicles, boats, trailers, mobile homes, or recreational vehicles to be parked in a garage or barn, as of right
4. require a zoning permit for the parking of one commercial vehicle outdoors in the side or rear yards
5. require a zoning permit for the parking of one commercial vehicle in the driveway or with screening in the side or rear yards
6. require a zoning permit for the parking of one boat, trailer, mobile home, or recreational vehicle with screening in the side or rear yards

Property owners would continue to be able to apply for a variance in the event that they cannot meet the requirements.

The TPZ may forward the draft text amendment to the Council with the following motion:

MOVED, that the Town Plan & Zoning Commission favorably recommends to the Town Council (Zoning Authority) text amendments to the Building-Zone Regulations (Sections 2 and 7) to modify requirements for parking commercial and recreational vehicles, boats, trailers and mobile homes in residence zones as described in the memo regarding “Commercial and Recreational Vehicle Parking in Residence Zones” from the Office of Community Development dated August 18, 2023.
