# Verify and Report your Water Service Line Material

The Federal Government now requires MDC to document every customer's water service line material.

**MDC does not have records for this property and needs your help.**

Here's how you can help:

**SCAN the QR code** with your phone camera to:

- Learn how to identify the material of your water service line from inside your home
- Submit a photo of your water service line (report results even if your line is not lead!)

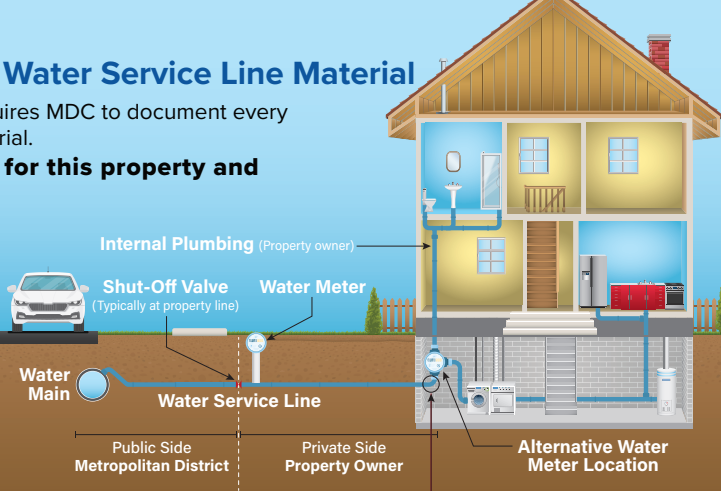

**OR VISIT [themdc.org/drinking-water/identify-your-water-service-line/](https://themdc.org/drinking-water/identify-your-water-service-line/)** to fill out the survey on a computer

**OR CALL 860-808-2347** to schedule an inspection for an MDC representative to look at your water service line in your basement

Para hablar con alguien en español, por favor envíenos un correo electrónico a [LeadFree@themdc.com](mailto:LeadFree@themdc.com).
