

TOWN OF GLASTONBURY

BID GL-2011-26

LAWN MOWING SERVICES

Addendum #2

REVISED DUE DATE 4/8/11 @ 11:00 A.M.

Please be advised that the following addenda items have been added to the request for bid for the above project. These items are in response to questions from the Pre-Bid Site Inspection:

1. Site maps did not accompany the electronic package. Maps are available on the Town of Glastonbury Website at www.glastonbury-ct.gov.
2. Location number 17, Smith Brook Pump Station, needs to be identified more clearly. It is south of house #1642.
3. The question was asked whether the award would be made to one contractor for all the properties. As stated in Item 20.0 on Page DS-2, the intent is to award the bid based on the lowest cost for all the areas. However, the Town reserves the right to award segments or parcels separately.
4. A question was asked regarding the Basis of Award and the total cuts for the year. An incorrect answer was given. The answer should have been eight cuts as stated in the bid on Pages BP-2 and BP-3. A unit cost per site should be given and a total cost for each site should be based on eight cuts.
5. Hours of Operation – Generally the hours of operation should begin no earlier than 6 a.m., 7 a.m. on weekends, and end by 6:00 p.m. There may be room for exception to these hours depending on the site, for example, at a cemetery or due to extenuating circumstances such as inclement weather and an impending holiday. The contractor should coordinate with the Parks Superintendent for approval to work outside these hours. In general, work adjacent to residential homes would be discouraged outside of these hours.
6. The bid due date has been changed to **April 8, 2011, at 11:00 a.m.**
7. Note: Please be advised that inquiries after April 4th at 9:00 a.m. will not be considered pertinent to the Request for Bid.
