

TOWN OF GLASTONBURY

BID #GL-2013-06 Refuse Compaction Equipment

ADDENDUM #1 Dated: June 19, 2012

**Bid due date: June 20, 2012
11:00 a.m.**

Please be advised of the following addendum. Bidders are advised they should acknowledge receipt of this Addendum in the space provided on the Bid Form. This Addendum consists of one page.

QUESTION AND ANSWERS

1. **Question:** In reference to section 2.04 mounting base are you looking for us to supply a concrete pad or just the specs. Because as it reads, you want us to do it. Please specify.

Answer: The Town assumes that the existing concrete mounting base will be sufficient for installation of the new equipment and not require replacement. The bid is hereby modified as follows:

DELETE SECTION 2.04 – Mounting Base

REPLACE SECTION 2.04 – Mounting Base

The vendor shall indicate in writing, included with the bid submission, if the concrete mounting base is not sufficient for the equipment as specified OR if the base is not in compliance with the manufacturer's recommendations. A detailed explanation shall be provided with technical data to support the need to replace and/or modify the existing concrete mounting base in compliance with the manufacturer's recommendations. The bidder shall include in their base bid the cost to replace and/or modify the existing concrete mounting base & remove the existing concrete mounting base (as applicable), along with the cost of replacement and removal of the compaction equipment. The sole discretion for the need to replace and/or modify of the existing concrete mounting base shall be that of the Town.

Where no detailed explanation is provided by the bidder for the replacement and/or modification of the existing concrete mounting base the Town will assume that the existing base is sufficient.
